1 Identification

· Product identifier
  · Trade name: Endo-Eze™ MTAFlow™, Endo-Eze™ MTAFlow™ White (Powder)
  · Article number: 14084
  · Index number: SDS 438-001.01
  · Application of the substance / the mixture: Professional Dental Repair Cement, Part 1 of 2

· Details of the supplier of the safety data sheet
  · Manufacturer/Supplier:
    Ultradent Products Inc.
    505 W. Ultradent Drive (10200 S)
    South Jordan, UT 84095-3942
    USA
    onlineordersupport@ultradent.com
  · Information department: Customer Service
  · Emergency telephone number:
    CHEMTREC (NORTH AMERICA) :(800) 424-9300
    (INTERNATIONAL) : +(703) 527-3887

2 Hazard(s) identification

· Classification of the substance or mixture
  Emergency Overview: Dust may irritate throat and respiratory system and cause coughing. Frequent inhalation of dust over a long period of time increase the risk of developing lung diseases. Dust or splashes from the mixture may cause permanent eye damage. Dust has an irritating effect on moist skin. Prolonged contact may cause burns.
  The product is not classified, according to the Globally Harmonized System (GHS).

· Label elements
  · GHS label elements: Void
  · Hazard pictograms: Void
  · Signal word: Void
  · Hazard statements: Void
  · Classification system:
  · NFPA ratings (scale 0 - 4)
    Health = 0
    Fire = 0
    Reactivity = 0
  · HMIS-ratings (scale 0 - 4)
    HEALTH Health = 0
    FIRE Fire = 0
    REACTIVITY Reactivity = 0

· Other hazards
  · Results of PBT and vPvB assessment
    · PBT: Not applicable.
    · vPvB: Not applicable.

(Contd. on page 2)
3 Composition/information on ingredients

· Chemical characterization: Mixtures
· Description: Mixture of the substances listed below with nonhazardous additions.

4 First-aid measures

· Description of first aid measures
· General information: Immediately remove any clothing soiled by the product.
· After inhalation:
  Move individual away from exposure into fresh air. If not breathing give artificial respiration. If breathing is difficult, administer oxygen. Keep patient warm.
· After skin contact:
  Immediately wash with water and soap and rinse thoroughly.
· After eye contact:
  Rinse opened eye for several minutes under running water.
· After swallowing:
  Do not induce vomiting; immediately call for medical help. Rinse out mouth and then drink plenty of water.
· Information for doctor:
  Most important symptoms and effects, both acute and delayed: No further relevant information available.
  Indication of any immediate medical attention and special treatment needed:
  Treat symptomatically.
  Seek medical advice after large-scale (>25 gm) exposure.

5 Fire-fighting measures

· Extinguishing media
· Suitable extinguishing agents:
  Water spray
  Foam, dry chemical, carbon dioxide
  Use fire fighting measures that suit the environment.
· Special hazards arising from the substance or mixture
  During heating or in case of fire poisonous gases are produced.
  Silicon Dioxide
· Advice for firefighters
· Protective equipment:
  Wear self-contained respiratory protective device.
  Wear fully protective suit.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures
  Wear protective clothing.
  Avoid formation of dust.
· Environmental precautions: Do not allow to enter sewers/surface or ground water.
· Methods and material for containment and cleaning up: Pick up mechanically.
Trade name: Endo-Eze™ MTAFlow™, Endo-Eze™ MTAFlow™ White (Powder)

· Reference to other sections
  See Section 7 for information on safe handling.
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

· Protective Action Criteria for Chemicals

| PAC-1 | 1314-61-0 Tantalite | 12 mg/m³ |
| PAC-2 | 1314-61-0 Tantalite | 260 mg/m³ |
| PAC-3 | 1314-61-0 Tantalite | 1,600 mg/m³ |

7 Handling and storage

· Handling:
  · Precautions for safe handling
    Powder is caustic. Keep out of eyes, lungs, or contact with mucosal tissues. After initial contact, wash and rinse with water. Wear suitable gloves and protective glasses during use. Endo-Eze MTAFlow & Endo-Eze MTAFlow White (powder) must be kept well sealed and free of contamination by pyrogens. Protect powder from humidity. Be careful not to contaminate the powder with a contaminated instrument.
    Keep receptacles tightly sealed.
  · Information about protection against explosions and fires: No special measures required.
  · Conditions for safe storage, including any incompatibilities
  · Storage:
    · Requirements to be met by storerooms and receptacles:
      Material is hydrophilic.
      Provide ventilation for receptacles.
    · Information about storage in one common storage facility: Store away from water.
    · Further information about storage conditions:
      Material is hydrophilic
      Protect from exposure to the light.
      See product labelling.
      Store in dry conditions.
      Store receptacle in a well ventilated area.
      Protect from heat
      Protect from contamination.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters
  · Components with limit values that require monitoring at the workplace:
    The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.
    At this time, the other constituents have no known exposure limits.
50.0.1 Tantalite

</table>

· Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls
  · Personal protective equipment:
  · General protective and hygienic measures: Be sure to clean skin thoroughly after work and before breaks.
  · Breathing equipment:
    Respirator
    Dust mask
  · Protection of hands:
    The glove material has to be impermeable and resistant to the product/substance/preparation.
  · Material of gloves:
    Nitrile rubber, NBR
    Latex
  · Penetration time of glove material
    The exact breakthrough time has to be found out by the manufacturer of the protective gloves and has to be observed.
  · Eye protection: Face protection
  · Body protection: Protective work clothing

9 Physical and chemical properties

· Information on basic physical and chemical properties
  · General Information
    · Appearance:
      Form: Powder
      Color: White
      Odor: Odorless
      Odor threshold: Not determined.
    · pH-value at 20 °C: ~12
  · Change in condition
    Melting point/Melting range: >700 °C
    Boiling point/Boiling range: >1,800 °C
  · Flash point: Not applicable
  · Flammability (solid, gaseous): Not determined.
### 10 Stability and reactivity

- **Reactivity:** Stable
- **Chemical stability**
  - **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
  - **Possibility of hazardous reactions:** No dangerous reactions known.
  - **Conditions to avoid**
    - **Moisture**
    - **Heat**
  - **Incompatible materials:** No further relevant information available.
  - **Hazardous decomposition products:** Silicon dioxide

### 11 Toxicological information

- **Information on toxicological effects**
  - **Acute toxicity:**
    - **LD/LC50 values that are relevant for classification:**
      - **1314-61-0 Tantalite**
        - **Oral LD50** 8,000 mg/kg (rat)

- **Primary irritant effect:**
  - **on the skin:** May irritate skin.
  - **on the eye:** May irritate eyes.
  - **Sensitization:** No sensitizing effects known.
50.0.1 Additional toxicological information:
Harmful if swallowed.
Inhalation: Mild irritant
Target Organ(s): Lung
The product is not subject to classification according to internally approved calculation methods for preparations:
When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

12 Ecological information

- Toxicity
  - Aquatic toxicity: No further relevant information available.
  - Persistence and degradability: Not biodegradable
  - Behavior in environmental systems:
  - Bioaccumulative potential: No further relevant information available.
  - Mobility in soil: No further relevant information available.
  - Additional ecological information:
  - General notes:
    Water hazard class 1 (Self-assessment): slightly hazardous for water
    Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
    Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.
- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.
  - Other adverse effects: No further relevant information available.

13 Disposal considerations

- Waste treatment methods
  - Recommendation: Do not allow product to reach sewage system.
- Uncleaned packagings:
  - Recommendation: Disposal must be made according to official regulations.

14 Transport information

- UN-Number
- DOT, IMDG, IATA: not regulated

(Contd. on page 7)
### 15 Regulatory information

- **Safety, health and environmental regulations/legislation specific for the substance or mixture**

  - **Sara**
    - **Section 355 (extremely hazardous substances):**
      - None of the ingredients is listed.
    - **Section 313 (Specific toxic chemical listings):**
      - None of the ingredients is listed.
    - **TSCA (Toxic Substances Control Act):**
      - All components have the value ACTIVE.
    - **Hazardous Air Pollutants**
      - None of the ingredients is listed.
    - **Proposition 65**
      - **Chemicals known to cause cancer:**
        - None of the ingredients is listed.
      - **Chemicals known to cause reproductive toxicity for females:**
        - None of the ingredients is listed.
      - **Chemicals known to cause reproductive toxicity for males:**
        - None of the ingredients is listed.
      - **Chemicals known to cause developmental toxicity:**
        - None of the ingredients is listed.
    - **Carcinogenic categories**
      - **EPA (Environmental Protection Agency)**
        - None of the ingredients is listed.
    - **TLV (Threshold Limit Value established by ACGIH)**
      - None of the ingredients is listed.
    - **NIOSH-Ca (National Institute for Occupational Safety and Health)**
      - None of the ingredients is listed.
  - **GHS label elements**
    - Void
16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
