SECTION 4: First aid measures

4.1. Description of first aid measures

Following eyes

: Check for and remove any contact lenses. In case of contact, immediately flush
eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.

Following skin: Immediately wash skin with soap and plenty of water. Remove contaminated clothing. Get medical attention if symptoms occur. Wash clothing before reuse.

Following ingestion: Give large volumes of water. Do not induce vomiting. Consult a physician if ingested in large amounts.

Following inhalation: Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate medical attention.

4.2. Most important symptoms and effects, both acute and delayed

| Eyes       | Severe eye irritation |
| Skin       | May cause slight irritation. |
| Ingestion  | Irritating to mouth, throat, and stomach. |
| Inhalation | High concentrations in immediate area can displace oxygen and can cause dizziness, unconsciousness, and even death with longer exposure. Keep people away from such vapors without self-contained breathing apparatus. |

4.3. Indication of any immediate medical attention and special treatment needed

Notes to physician: NAP
