Perfect contacts
Ideal anatomy

The V3 system’s smart, easy-to-use design gives it wide indications for use and—best of all—gives you perfect contacts and ideal anatomy.

V3: The perfect system for creating perfect Class IIs
+ Superelastic nickel-titanium spring creates optimal separation force and tight contacts
+ Glass-fiber tines will not collapse into wide cavities, even when a cusp is missing
+ Tines are anatomically shaped for superior matrix retention and adaptation, minimizing the amount of finishing needed
+ V-shape of tines accommodates placement of the wedge
+ V3 Tab-Matrix has a pronounced marginal ridge and vertical profile for correct anatomical form
+ Wave-Wedge is stackable, self-locating, and self-seating for optimal seal on matrix
+ Spring tilt allows easy stacking of multiple rings
+ Ring is very stable on undercuts and in forceps during placement
UNIVERSAL V3 RING - GREEN
- NITI for ideal spring strength and elasticity
- Long-lasting tines, safe in autoclave
- V-shaped tines accommodate wedge
- Tines shaped for ideal matrix retention and adaptation

NARROW V3 RING - YELLOW
- Tines set closer together for optimal separation of smaller teeth
- Up to 4kg of separating force, even on premolars

SUPERCURVE MATRIX
- Matrix hugs the tooth, avoiding interference with ring placement
- Microthin, non-stick finish makes removal easy
- Shaped gingival apron leaves no gaps in the gingival-axial corner
- Rolled ridge on occlusal margin provides beautiful marginal ridges

V3 TAB-MATRIX
- Only V3 Tab-Matrix has a pronounced marginal ridge for natural anatomy
- Pronounced curvature on horizontal plane means more curvature remains as matrix wraps around tooth
- Gingival apron is properly shaped to commonly encountered cavity form, avoiding gaps in the gingival-axial corner

WAVE-WEDGE
- Fine wave-shaped wings compress on entry and flare again upon exit for easy placement and ultimate seal
- Hollow underside allows another wedge to be placed from the opposite side of the embrasure

WEDGEGUARD
- WedgeGuard prevents the bur from nicking the adjacent tooth
- After tooth preparation, the guard is detached while the wedge remains in place
- Saves time and protects gingival papillae

V-WEDGE
- Rigid enough to provide tooth separation, with great sealing capability at the gingival margin
- The self-guiding and stackable features make it easy to place and adapt to the contours of the interproximal space

SUPERCURVE MATRIX
- Matrix hugs the tooth, avoiding interference with ring placement
- Microthin, non-stick finish makes removal easy
- Shaped gingival apron leaves no gaps in the gingival-axial corner
- Rolled ridge on occlusal margin provides beautiful marginal ridges

PIN-TWEEZERS & FORCEPS
- Pin located in tweezer tip grips holes in Triodent matrices and wedges for absolute control
- Tweezers’ naturally closed position means you will never drop a matrix or wedge
- Tweezer tip includes a handy ball burnisher
- Forceps’ locking function and angled-grip arms hold the V3 Ring securely, both mesially and distally

V3 products are available in the following compositions:

403301 V3 Matrix Kit
Contains:
- 1 x V3 Rings Universal (green)
- 1 x V3 Ring Narrow (yellow)
- 25 x Wave-Wedges Small (white)
- 25 x Wave-Wedges Medium (pink)
- 25 x Wave-Wedges Large (purple)
- 25 x V3 Tab-Matrices 3.5 mm
- 25 x V3 Tab-Matrices 5.5 mm
- 25 x V3 Tab-Matrices 6.5 mm
- 25 x V3 Tab-Matrices 7.5 mm
- 2 x Pin-Tweezers
- 1 x Forceps

4134 V3 Ring Universal Refill
- 2 x V3 Rings Universal (green)
- 2 x V3 Rings Universal (yellow)
- 2 x V3 Rings Narrow (yellow)
- 90 x Matrices

4158 3.5 mm (gray)
4159 4.5 mm (green)
4160 5.5 mm (blue)
4161 6.6 mm (maroon)
90 x Matrices

2 x Pin-Tweezers
1 x Forceps

4207 3.5 mm (gray)
4208 4.5 mm (green)
4209 5.5 mm (blue)
4302 6.5 mm (maroon)
4162 7.5 mm (gray)
50 x Matrices

3.5 mm (gray)
4.5 mm (green)
5.5 mm (blue)
6.5 mm (maroon)
7.5 mm (gray)
100 x Wedges

4172 Small Hard (light yellow)
4173 Small Soft (dark yellow)
4174 Medium Hard (light green)
4172 Medium Soft (dark green)
4173 Large Hard (light blue)
4174 Large Soft (dark blue)
100 x Wedges

4170 Pin-Tweezers
4171 Forceps

4172 Small (white)
4173 Medium (pink)
4174 Large (purple)
100 x Wedges

4175 Small (white)
4176 Medium (pink)
4177 Large (purple)
100 x Wedges
